## *FOREWORD.*

The Collection of gold coins offered herewith for sale was formed by a foreign collector, who for special reasons does not wish to disclose his name.

Attracted by the charming types of Greek coins and fine portraits on Roman coins, he first of all purchased representative specimens and later extended his series into the later Roman Empire, Byzantine, Vandals, Ostrogoths and Wisigoths.

The Gupta and other Oriental coins, as well as the more modern pieces, he bought on his various journeys abroad.

The Collection speaks for itself with regard to the high standard of condition and artistic taste in selection.

Necessity, the result of present conditions, obliges the owner to disperse his collection by auction sale, and he trusts that Collectors will take the opportunity given them by him to add fine and interesting specimens to their Cabinets.

# PRICED CATALOGUES.

---

**A**FTER each sale these catalogues are issued with the prices realised printed in the margin opposite each lot, thus giving at a glance a reliable guide to values.

The final test of value must always be auction prices rather than the figures given in books of reference, for changing times and fashions soon render the latter obsolete and misleading.

On the average we issue twelve Coin and Medal catalogues a year, some of which are usually of sales of important collections. The **priced catalogues** are posted to subscribers as soon as ready, usually about a week after the date of sale and the subscription is . . . .

**ONE GUINEA** per annum.
